

Congratulations to the STEMBOTS!!!

FIRST FTC Robotics
Spring Event 2017 at McCollough-Unis

Dearborn STEM Middle School Team

The STEMBots take home the honorary FIRST Robotics FTC Inspire Award!

“This judged award is given to the team that truly embodied the ‘challenge’ of the FTC program. The team that receives this award is a strong ambassador for FIRST programs and a role model FTC team. This team is a top contender for many other judged awards and is a gracious competitor. The Inspire Award Winner is an inspiration to other teams, acting with Gracious Professionalism™ both on and off the playing field. This team is able to communicate their experiences, enthusiasm and knowledge to other teams, sponsors, their community, and the Judges. Working as a unit, this team will have demonstrated success in accomplishing the task of designing and building a robot (www.firstinspires.org)”

The STEMBots were also finalist for the Design, Rockwell Collins Innovate, Connect and Think Awards!
